**BRIAN MOKAYA**

**Location:** Nairobi, Kenya| Phone: +254718611396

JavaScript | React.js |Next.js | WordPress

**Email:** brianokeri95@gmail.com

## PROFESSIONAL STATEMENT

I'm a passionate Front-End Developer with a strong focus on building responsive, user-friendly web interfaces using modern technologies like JavaScript, React, and Next.js. With hands-on experience in developing both dynamic single-page applications and custom WordPress themes, I thrive on turning design concepts into high-performing digital experiences. My development approach balances clean, maintainable code with performance and accessibility in mind. Whether I'm building from scratch or optimizing existing projects, I aim to deliver intuitive and scalable solutions that meet real-world user needs.

## SKILLS

**Programming Languages:** JavaScript, Python, PHP

**Frameworks & Libraries:** React, Next.js,

**Data Management:** MySQL, SQL, PostgreSQL, MongoDB

**CMS:** WordPress

**Tooling:** Git, Github

## PROFESSIONAL EXPERIENCE

**Front-End Developer** **02/2021- Date**

- Building responsive and interactive user interfaces using modern JavaScript frameworks like React and Next.js. Ensure cross-browser compatibility, mobile responsiveness, and performance optimization
- Connecting front-end components with back-end services and third-party APIs to create dynamic, data-driven applications. Work with RESTful APIs and GraphQL for smooth data handling.

- Translating UI/UX designs from tools like Figma or Adobe XD into functional interfaces. Focus on usability, accessibility (WCAG), and pixel-perfect implementation to enhance user experience.
- Refactor legacy codebases, improve performance, and apply best practices in version control (Git), code reviews, and documentation to maintain clean and scalable code.
- Collaborating with designers and stakeholders to create user-friendly interface for new web application to increase user engagement and a reduced bounce rate.
- Collaborate directly with clients to gather requirements, provide technical guidance, and deliver progress updates. Manage timelines, scope, and revisions independently.
- Building custom WordPress websites that are fast, responsive, and visually engaging. I convert Figma or design mockups into clean, pixel-perfect themes using HTML, CSS, JavaScript, and PHP.

## EDUCATION

Bachelor of Science (BSc) in Mechatronics Engineering, Dedan Kimathi University of Technology

## ADDITIONAL SKILLS

- Problem Solving and debugging
- Attention to Detail, adaptability, and Flexibility
- Time and project management.
- Experience with testing frameworks (e.g. Jest, Mocha)
- Understanding of asynchronous programming and callbacks
- Knowledge of web performance optimization techniques.
- Adaptability and eagerness to learn new concepts.
