UI/UX Designer| Full-stack Designer

Email: brianokeri95@gmail.com

PROFESSIONAL STATEMENT

Creative, results-driven UI/UX Designer with a strong focus on building responsive, user-centered digital products using modern technologies such as Figma, Adobe XD, and Canva. Proficient in user methodologies, testing, wireframing, and design systems that align user needs with business goals.

SKILLS

Skills: UX Research. UI/Interaction Design. Agile Development. Journey Mapping. Information Architecture. Wireframing. Prototyping. Usability testing. Interaction design. Empathy Maps. Affinity diagrams. Web Design.

Software: Figma. Sketch. Adobe XD. Illustrator. After Effects. InDesign. HTML. CSS. JavaScript. Python. PHP. VS Code. GitHub. CMS web design.

PROFESSIONAL EXPERIENCE

UI/UX, Full-Stack Designer **02/2023- Date**

- Designed and enhanced web and mobile applications from concept to launch using Figma, translating requirements into intuitive user experiences through wireframes, user flows, and high-fidelity visual designs.
- Designed and developed high-converting landing pages, marketing collections, and email ads, contributing to a 20% increase in lead generation.
- Improved end-to-end user experiences by conducting usability evaluations, identifying interface challenges, and recommending data-informed design improvements to enhance usability and customer satisfaction.
- Prototyping consumer-facing digital products using Figma, developing interactive interfaces, mapping user journeys, and translating product requirements into functional design concepts.

- Collaborated with cross-functional teams, designers, developers, and stakeholders to design responsive user interfaces that improved user engagement and reduced bounce rates.
- Conducted User Acceptance Testing (UAT) to validate application functionality against business requirements by testing real-world user interactions, including clicks, form inputs, navigation, and checkbox selections, to identify issues and ensure a seamless user experience.

Mechanical Maintenance **02/2020- 01/2023**

- Implemented a Lean Six Sigma strategy that greatly reduced stoppages caused by breakdowns and inspections, introduced improvements, and offered training
- Installed, troubleshot hardware, and carried out maintenance activities for all mechanical equipment and facilities.
- Implemented a work order system to track repairs and identify trends.

EDUCATION

Bachelor of Science (BSc) in Mechatronics Engineering, Dedan Kimathi University of Technology

ADDITIONAL SKILLS

- Problem Solving and debugging
- Attention to Detail, adaptability, and Flexibility
- Experience with UI testing frameworks (Selenium, Cypress, Playwright)
- Knowledge of web performance optimization techniques.
- Adaptability and eagerness to learn new concepts.
